

**Pre-Qualification Listing of Approved Retro-Commissioning Consultants  
2012-2017**

The Montana Department of Environmental Quality (DEQ) issued a Request for Qualifications (RFQ) to develop a list of pre-qualified individuals that could provide retro-commissioning services to local government units, K-12 school districts, universities, and state agencies in the state of Montana. Retro-commissioning is a systematic process for investigating, analyzing, and optimizing the performance of existing building systems by improving their operation and maintenance to ensure their continued performance over time. The main objective of this process is to eliminate deficiencies in equipment operation, schedules, or sequencing that prevents the optimization of energy savings. This list may also be used by companies in the private and non-profit sectors. This list will be updated annually in August. Any vendor who is not listed below and desires to be pre-qualified may submit a proposal during the month of July and if approved, will be added to the pre-qualified list every August. Based on this Request for Qualifications, the following individuals have been identified and determined to be qualified for a period of five years (September 2012 to September 2017) to perform those services.

<b>Ameresco</b> Brian Solan, P.E. 34 West 6 <sup>th</sup> Avenue, Suite 2B Helena, MT 59601 406-443-4880 <a href="mailto:bsolan@ameresco.com">bsolan@ameresco.com</a>	<b>Cadmus Group</b> Matt Hale, P.E., c/o Donna Jensen 2620 Colonial Drive, Suite A Helena, MT 59601 406-457-5226 <a href="mailto:Donna.jensen@cadmusgroup.com">Donna.jensen@cadmusgroup.com</a>
